THE INCEPTION

THOUGHT, the very first thing that comes into the mind before setting up something different, was the base on which FeTronix came into existence in 2018. Innovations come through passion and we are the ones who embed these as our intrinsic character. The passion to deliver the best is our driving force. We innovate to provide a better customer experience with quality and efficacy. We are youth and so we trust and believe in our capability to serve our esteemed customers with full dedication and honesty. We also believe in the concept of “**ATMANIRBHAR BHARAT**” and thus we promised ourselves that every part of our product will be conceptualized and truly Made In India. With these objectives, we came together to take Automation Ahead by Thinking Precisely, thereby starting our foray into the field of Industrial Automation by incorporating FeTronix.

WHAT WE DO

FeTronix is an Industrial Machine Manufacturing and Automation Company having expertise in the field of Conveyor Systems, Batch Ovens, Conveyor ovens, Liquid/ Powdered /Adhesive Coating Plants and Paint Booths, Paint shop accessories, P.T Line and Washing Lines, Robotics, PLCs and IIMIs. We offer customized Industrial Automation experience with a vast range of Automation. We are also the trouble-shooters who provide a seamless solution to your previous automation installations. Whether you plan to upgrade, modify or plan to have a completely new automation requirement, we are there for you always. We conceptualize, construct and develop automation with in-depth experience and innovate to provide world- class solutions.

HOW WE DO

At FeTronix , we have an immaculate process of evaluating, analyzing and finally developing the automation systems that meet your actual requirements. We follow the set key procedures ensuring minimal disruption while optimizing the specifications to implement state-of-the-art technology for a seamless transformation.

Identifying Problem Areas

The process starts with identifying the problematic areas inclined with the ultimate objective of any sort like higher productivity, better efficiency, enhanced quality and safety, etc. We send an expert team directly to the spot which helps us understand the issue at a minute level.

Analyzing the Problem

We analyze what specific redundancy the operations are dealing with in an in-depth analysis guided by our expert team. This process helps to generate inputs that guide us to pinpoint the exact problem.

Solution Development

Coupled with state-of-the-art technology and impetus from the analysis, FeTronix delivers a well-crafted product as a solution to attain defined target metrics. The solution we provide is the best in the market with appreciable ROI. This is the stage where we issue a quote along with lead time for project completion.

Implementing the Automation

Using expertise in the field of automation, we start manufacturing the product with the best breed of technologies put in place while constantly communicating with our esteemed customers at each stage to ensure we stay aligned.

Test for Good

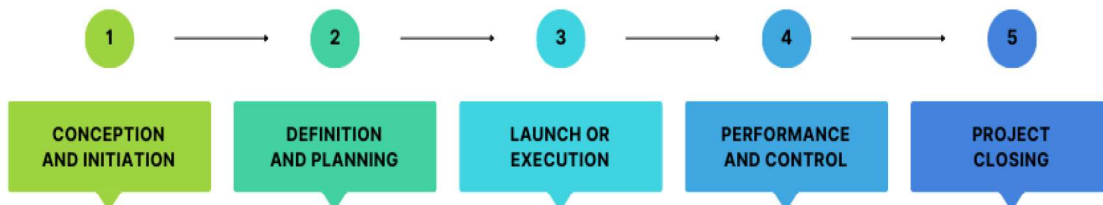

After manufacturing and before commissioning, we run a full diagnostic test to verify that its performance capabilities fulfill the desired target. The diagnostic data being captured, are monitored and verified by our quality team before delivering the product.

Lifecycle Support

As FeTronix is committed to serving better, we impart training to operators and maintenance crew on site. We also remain available over the web link or phone call to address the questions in real-time.

Project Management

MEET OUR LEADERSHIP

Our leaders have combined industry experience of more than **36 years** with immaculate and established performances in their respective fields. With the zeal to serve along with new ideas and innovation, our leaders built FeTronix with an environment where the combination of experience and creative ideas merge to deliver the best results to the customers.

Surya Pratap Singh - Co-founder & Director

Drives FeTronix's vision and manages investor relations and growth beyond innovation. Surya is a Mechanical Engg. (Hons.) with proficiency in AutoCAD and CATIA having more than 9 years of industrial experience.

Agam Patel - Co-founder & Director

Responsible for day-to-day operations and Finance at FeTronix, including product development, quality and maintenance. Agam is an Electronics and Communication Engineer with more than 9 years of industrial experience.

Amit Singh - Co-founder & Director

Being a Mechanical Engineer with more than 18 years of industrial experience, Amit leads the Production and Planning with a focus on infrastructure expansion and customer acquisition.

**"LEADERSHIP IS THE CAPACITY TO TRANSLATE
VISION INTO REALITY"**

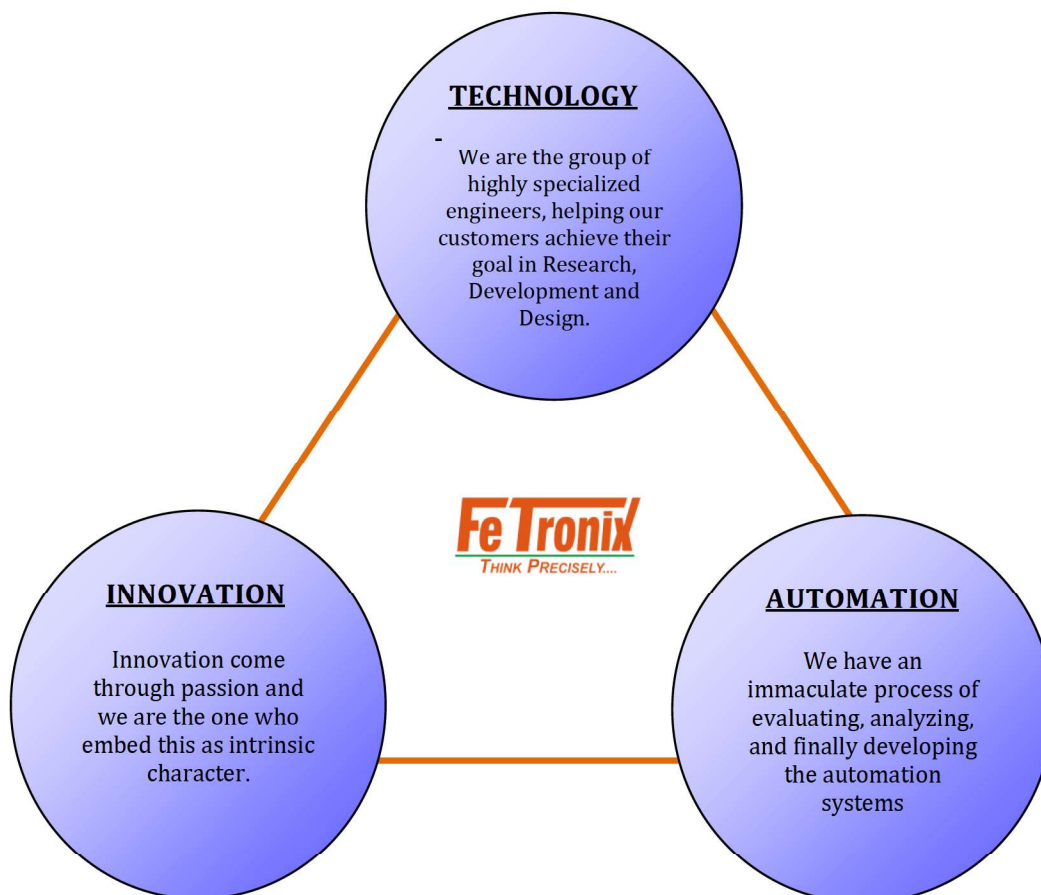

ON WHAT WE THRIVE

MISSION

To serve the country and its people through innovation and advancement in the field of Industrial Automation by delivering standard quality products and services delighting our customers following the ambition of Atmanirbhar Bharat.

VISION

To make a big difference in Automation Industry by innovating through smart work using trivial things and imbibe the passion to innovate in everyone through our code of work with an ultimate goal to achieve excellence.

OUR CORE VALUES

Customer Satisfaction

We are committed to customer satisfaction as they are the ones who keep us going. We understand and value customer opinion since they allow us to grow and improve continuously with them.

Quality

Quality of product and service speed is the foremost criteria set by us to demonstrate how much we value the trust that we build with our customers, partners, suppliers and people.

Innovation par Excellence

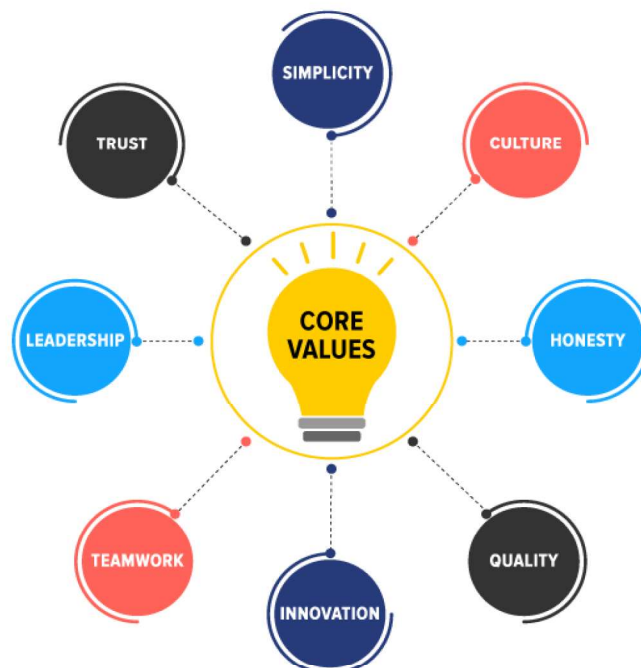

Innovation inspires excellence and thus we work to create such an environment where young minds guided by experience professionals generate creative ideas to innovate and deliver the best every time.

Honesty & Integrity

Honesty is the core of every relationship and therefore we, as a company remain honest with every stakeholder and stay put to integrity by holding every commitment we make, thereby creating trust among everyone which is the cornerstone of our beliefs.

Humility

We always remain grateful and appreciate our co-workers who have helped us build FeTronix the way it is known for and carry-on day-to-day operations without seeking any public recognition.
